

C, C++ COURSE CONTENT

C

- Introduction to C
- Data Types
- Operators
- Type Conversions
- Bitwise Operators
- Conditional Statements
- Loops
- Arrays
- Strings
- Functions
- Nesting Functions
- Recursive Functions
- Pointers
- Structures & Unions
- Array of Structures
- File Handling
- Library Functions

C++

- Introduction to C++
- Structure of C++ Programming
- Data Types
- Operators
- Conditional Statements
- Function Prototype
- Recursive Function
- Classes and Objects
- Scope Operators
- Inline Function
- Inheritance
- Polymorphism
- Operator Overloading
- Dynamic Polymorphism
- Abstract Classes
- File Handling
- String Manipulation
- Generic Classes
- Templates and Exception
