

Data science with R

Statistic:

- Binomial dist- 1Hr
- Poission dist -1hr
- Normal Dist- 1hr
- Conditional Pobability-1hr
- Descriptive Statistic- 3 hrs
- Inferential Statistic- 3 hrs
- TOH- 1hr
- Non Parametric-2hr
- Supervised & Non supervised learning Modelling:
- Linear Regression—3hrs
- Logistic regression—3hrs
- Clustering—3hrs
- Market basket Analysis- 1hrs

R language

- Introduction to R .
- Data cleaning using R
- Data preparation using R
- Data imputation using R
- Outlier detection using R
- Graphs using R
- One Project- Assignment
